Secaucus, NJ -- (ReleaseWire) -- 06/15/2015 -- [EmpireCLS](#) the nation's leading luxury, chauffeured transportation provider, proudly announces the addition of two new luxury vehicles to their New York and Los Angeles markets.

"Our fleet of luxury vehicles represent the height of industry standards for vehicle safety and performance," said chairman and CEO David Seelinger. "'Luxury' can mean a lot of things, including being transported in the newest vehicles, and we want to ensure those vehicles are available for our clientele."

One of the fleet's newest additions is the 2015 Lincoln Navigator SUV. The Navigator features signature Lincoln Drive Control and intelligent suspension for a smooth performance while the 3.5L EcoBoost Engine ensures a powerful ride, no matter how long the journey. The Navigator also boasts enhanced features like an entertainment system, rare wood inlays and surround sound audio.

The Lincoln brand is well-respected in the ground transportation industry due to the legacy of the Lincoln Town Car and Town Car stretch limousines, which served as the workhorses of the ground transportation industry for over two decades.

[EmpireCLS](#) also introduces a fleet of custom Cadillac XTS limousines, which can accommodate up to six passengers. At 70 inches, the Cadillac XTS limousine has the generous leg room and comfortable, leather-appointed seating that has made the Cadillac name synonymous with luxury. Guests traveling in the Cadillac XTS limousine can also enjoy wireless internet, TV, entertainment system and personalized climate control.

EmpireCLS's select fleet includes luxury sedan models like the Mercedes-Benz S550 and BMW 740li, SUVs and large-capacity vehicles for group transportation. EmpireCLS employs a fleet of late-model vehicles, replacing each vehicle every 24 months—regardless of condition. Guests of EmpireCLS have come to expect a consistent level of five-star transportation service. The luxurious experience is due largely in part to the company's pristine fleet.

EmpireCLS is available for reservations in New York, Los Angeles and in over 700 cities within our global footprint. For more information on the EmpireCLS [fleet](#), visit their [website](#) or contact their global reservation center at (800) 451-5466.

About EmpireCLS

For over three decades, EmpireCLS has led the livery transportation industry in trends and entrepreneurial vision. Captained by chairman and CEO David Seelinger, EmpireCLS has grown from a single-car company to a worldwide, luxury, chauffeured transportation provider, equipped with a fleet of late-model, luxury vehicles and driven by only the most dedicated and professional chauffeurs.

Available in over 700 cities worldwide, EmpireCLS provides unparalleled, five-star service to all of its guests, and also offers premium services like security coverage and airport concierge. Whether arranging transportation to their hotel or a major awards ceremony, EmpireCLS's guests can expect the best-in-class service that has earned the company its worldwide reputation for excellence.
