AS AN AFFILIATED COMPANY OF EMPIRE CLS, A GLOBAL, LUXURY GROUND TRANSPORTATION LEADER, WE KNOW A THING OR TWO ABOUT SETTING HIGHER STANDARDS FOR EXECUTIVE PROTECTION TRANSPORTATION SERVICE.

HERE'S HOW WE SUCCEED:

Network of Resources:

Stateside or worldwide, our relationships with various levels of state and local governments provide additional intelligence, allowing for more comprehensive risk assessment and immediate assistance in the event of potential threats.

Documentation: SecureCar's proprietary **TransBrief** portfolio visually confirms the identity of your transportation team before the trip.

Each portfolio includes photo identification of chauffeur and vehicle, trip itinerary, advance trip routing with alternate routes, safe havens, hospitals, and law enforcement contacts.

Intelligent Security: Our executive protection specialists are experienced, discrete professionals that rely on due diligence and risk assessment

to anticipate potential threats. Excellent client relationship skills create trust and confidence between client and team.

Accuracy & Security: Quality control processes are performed at different intervals prior to meeting the client to ensure early arrival of chauffeur

and itinerary confirmation. Proprietary software ensures personal and financial information is kept confidential and secure.

Entertainment Industry:

SecureCar has extensive experience transporting high-profile clientele, from traveling with bands on national (and international) tours to advance work and route planning for movie premieres. When reliability and professionalism are in demand, we go above and beyond to get our clients on stage and on the red carpet safely.

Experience: Through its affiliation with EmpireCLS, SecureCar has created peace of mind for its discerning clientele through personalized service,

discretion and security. Clients use our services based on our dedication to safety and security.
